

Support everywhere you are

GPSitek provides professional technical consulting services for our U.S. government clients — wherever they are in the world. As a Native Hawaiian Organization (NHO), GPSitek offers the ability to receive directed, sole source, non-competed contract awards from federal agencies.

LOGISTICS

Cradle to grave life-cycle logistical support

- Acquisition support for services and assets
- Assistance deploying, moving, and resetting equipment
- Budget support
- Training
- Help with disposal

PROJECT MANAGEMENT

Running a successful project is both a science and an art

With ISO, CMMI, and ITIL quality frameworks providing quality assurance to monitor and control, our projects come in on time, on budget, and with high customer satisfaction

IT SERVICES

GPSitek's service managers work to design, implement, and deliver services that improve performance, operational efficiency, and service delivery

- Service Design
- Transition planning and support
- Service-level, availability, capacity security, supplier, and continuity management
- Service validation and testing
- Request fulfillment
- Technical Management
- IT Operation Management

GPSitek is an authorized and approved U.S. Small Business Administration Joint Venture through the All Small Mentor Protégé Program (ASMPP). GPSitek brings together GPSI Guam (Protégé), a Guam-based SBA 8(a) and HUBZone certified Small Business, and OBXtek (Mentor), a Veteran-Owned relationship-driven information technology and diversified professional services company.
