

At HunaTek-OBXtek JV, our mission is to provide high-quality services to our clients while maintaining the highest level of professionalism and ethics.

HunaTek-OBXtek JV brings together HunaTek (Protégé), an 8(a) Alaska Native Corporation (ANC)-owned Small Disadvantaged Business, and OBXtek (Mentor), a Veteran-Owned relationship-driven information technology and diversified professional services company.

Cybersecurity

We are an experienced cybersecurity and information security provider with teams possessing up to Top Secret SCI level clearances. If you have a cybersecurity need, we can help.

- Penetration testing
- Risk and vulnerability assessment
- Malware remediation
- Insider threat assessment
- Continuity of Operations (CONOPS)
- Risk management

IT Solutions

Rapid, reliable, secure access to information systems is critical to your mission. We ensure that access by providing IT professionals who know their field and know your environment.

- Full-Cycle IT Support
- Application Maintenance and Platform Migration
- Information Security/Information Assurance
- System Architecture and Infrastructure Engineering
- Cloud Migration
- Data Center Services
- Infrastructure Management

Enterprise Service Management

We deliver top-notch enterprise IT service management lifecycle services, from design to mission-critical system management for our federal clients.

- Technology modernization
- Infrastructure optimization
- Data center consolidation
- Virtualization
- Secure cloud infrastructure
- Service desk

Software

Working with us, you get powerful software expertise to create modern solutions that are as flexible as they are effective.

- CMMI Level 3 (DEV) software development
- Agile methodologies – including Scrum and Scaled Agile Framework (SAFe)
- A mobile-first mindset with a keen eye for UI/UX
- Section 508-compliant solutions

Cloud Computing

We specialize in Enterprise Content Management (ECM) to select the ideal platform at the right price for your needs. We can design, store, warehouse, and mine your data for you. We have relationships with all major Cloud Service Providers: AWS, Microsoft, Google, Oracle, and IBM.

- Oracle Web Center Content
- IBM Web Content Management
- Liferay
- SharePoint
- Drupal

Mobile Apps

While leveraging the latest methodologies with strategic partnerships, we still craft technology agnostic services that fit your operational needs and budget. We utilize engaging, high-retention mobile apps including:

- Microsoft Xamarin ecosystem
- AirWatch (for MDM)
- PhoneGap
- Node.js

Professional Solutions

Today's government operations demand the rapid collection, fusion, and transmission of information at unprecedented speed, capacity, availability, precision, and security. This constant and uncompromising posture must be maintained across all platforms and in the most challenging environments around the world.

- Business Process Reengineering
- Organizational Change Management
- Data-Driven Decision Support
- Cost Estimation & Analysis

Training & Logistics

We provide planning, programming budgeting and execution (PPBE) and Financial Improvement and Audit Readiness (FIAR) support to the DoD which includes

- Trend analysis
- Threat, technology, and economic assessments
- Formulating, justifying, executing, and defending services
- Extensive training for joint military and interagency projects

Acquisition & Program Management

Our recognized experts provide you with support through the entire process with subject matter expertise, trusted advisors, and proven management operations.

- ISO9001:2015 quality management
- CMMI for development and services
- The Project Management Institute's PMBOK
